ALTERNATIVE PACKAGING: Add "-PDB" to end of code for a dispenser box instead of bags

² Many suppliers claim their products are latex free, however this often only relates to the fabric and not the elastics used. We source our ShoozCovers™ elastics from the USA to ensure that our components conform fully as a 100% latex free product. ³ Shooz-Repellent™ technology provides basic incidental fluid contact repellent. It is not waterproof nor water resistant.
