

BATRIK Endoscopy BO2™ Bite Blocks with Nasal Oxygen Delivery

significantly enhances patient safety by providing supplemental oxygenation during gastrointestinal endoscopy preventing hypoxia in sedated patients, while ensuring superior patient comfort.

- Lower procedural costs by obviating the need for separate nasal prongs and oxygen masks, the BO2 Bite Block helps save time and money
- Ensure patient comfort and safety as with other Bite Blocks from BATRIK Medical, the BO2 Bite Block is designed to be free of sharp edges to ensure patient comfort and safety. Additionally, our bite blocks are guaranteed to be latex-free, lead-free and DEHP-free.
- Choose from disposable and reusable options. The BO2 Bite Block is available in single use and reusable options. Use our flexible ARC Wire Brush #41-32505, which will allow you to properly clean the nasal prongs and inlet of the reusable BO2.
- Ensure secure fit. An optional retention strap is available to ensure a secure fit. These straps, like the bite block, are latex free, lead free and DEHP free.

BO2™ Bite Block

Item #	Description	Packaging
