

STAINLESS STEEL HANDS-FREE DOOR OPENER

The Imperial Surgical Ltd. Hands-Free Door Opener is a 100% stainless steel, foot operated door opener that works on any latch-less door.

Easy to install and easy to clean, the no-touch opener helps minimize the spread of germs by reducing the need to touch door handles where bacteria and viruses may live.

The hands-free door opener comes with an eye catching sticker to put on the door to encourage people to use it. We also provide the hardware so you have everything you need for installation.
