NIOSH APPROVED N95 MODEL L188 PARTICULATE RESPIRATOR

Designed for **high filtration capacity** to protect wearers from airborne particles, this respirator is **hypoallergenic** and **latex free**. The flat folded-style adapts well to wearer's facial features and padded nose piece provides comfort when worn over a prolonged period of time. This N95 respirator **has been approved by NIOSH** (National Institute for Occupational Safety and Health), the global standard and your only choice for protection you can truly trust.

Performance Standard: The respirator is Certified under 42 CFR 84 and NIOSH approval "TC-84A-6973"

Filtration Efficiency: $\geq 95\%$

Product Type: Disposable Respirator Mask

Certifications: Filtration efficiency $\geq 95\%$. Inhalation resistance, exhalation resistance, and Sodium Chloride (NaCl) N95 tested and conform to NIOSH criterion. (NIOSH procedure TEB-APR-STP-0007, RCT-APR-STP-003, and TEB-APR-STP-0059). Health Canada compliant. Approved by Health Canada as an authorized medical device for uses related to COVID-19.

FEATURES

- Conforms highest N95 safety standards, NIOSH N95 (National Institute for Occupational Safety and Health)
- Comfortable fit: flat folded-style adapts well to wearer's facial features and padded nose piece provides comfort when worn over a prolonged period of time

BATRIK PREMIUM SAVEFACE™ FACE SHIELD

Our SaveFace™ Face Shield (Visor) is lightweight and allows for good peripheral vision while acting as a physical barrier against splashes. Can be used for extended periods due to comfort-focused design and superior quality materials.

Choose amongst two models:

- The classic **non-draped** model closes the gap between the shield and the chest bone when head is tilted forward for added protection.
- **Draped** offers full-length coverage extending from the top of the eyebrow to below the chest, covering the anterior neck area as per CDC recommendations.

HEADPIECE

- Self-shaping foam headpiece molds and cushions forehead for a comfortable and secure fit (per CDC recommendations)
- Shielded air vents maximize airflow for enhanced comfort and prevent fogging

VISOR

- Excellent Distortion-Free Optical Clarity with flat viewing area reduces distortion and glare
- Features anti-fog treatment for clear view
- Wide visor provides for peripheral protection to help prevent splashes from going into the eyes
- High Quality 7.5 mil (0.19 mm) thickness PET

DRAPE

- Our patent-pending drape model comes equipped with integrated ANSI/AAMI PB70 Level 3 compliant splash drape barrier for added protection

BATRIK SHIELD™ FACE SHIELD

A cost-effective alternative to our premium SAVEFACE™ models, the BATRIK Shield™ provides excellent splash protection. An ideal safety addition to all pandemic kits.

- Self-shaping foam head piece molds comfortably to forehead
- Shields can be used for longer periods due to comfort and improved materials
- Optical shield with anti-fog and anti-glare provide a clearer viewing area
- Soft plastic fasteners adhere the elastic band to the shield for additional comfort and easy use
- Latex free

WTFOG™ by G.O.L.F.F.™

REUSABLE ANTI-FOG CLOTHS

“WHAT THE FOG?!”

We've all experienced it.

Eyewear fogging up while wearing a mask is not only unpleasant and highly frustrating, but it can be dangerous, too.

INTRODUCING THE FOG FIX:

Our WTFog™ reusable anti-fog cloths prevent fogging on all types of eyewear. Ideal for use when wearing a mask or face shield, WTFog™ takes you from “What The Fog?!” to confidently ready for your next patient in a snap.

WHY YOU'LL LOVE IT:

- Eliminates fogging on all glass, polycarbonate, and plastic eyewear lenses
- Each reusable nano-infused cloth lasts up to 600 wipes or 6 months
- Microfiber cloths are infused with our proprietary heavy duty anti-fog treatment
- Quick and easy application - just wipe and wear
- Lint-free, scratch-free, no greasy smearing
- Long lasting protective coating provides effective protection against fog, humidity, sweat, and fast temperature changes.
- 100% Natural Titanium Dioxide (TiO₂) Nano Formula developed in Germany meets strict REACH standards
- Non-Sterile

“To be able to complete a whole appointment without adjusting my eye protection makes maintaining COVID PPE protocols that much easier.”

DR. MOLLY FRIEDMAN

HOLLAND BLOORVIEW KIDS REHABILITATION HOSPITAL
TORONTO, ON

PERFECT WHEN:

- You wear glasses/goggles and a mask/face shield
- Your profession regularly exposes you to fogging and you need crystal clear vision without the risk or hassle of fogging up

DIRECTIONS FOR USE:

Open resealable pouch and remove the WTFog™ reusable anti-fog cloth. Wipe cloth on clean surface (glasses/goggle lens) being careful not to remove the protective coating delivered by the cloth. There is no wait time required before wearing your protected item. Enjoy your fog-free experience!

CLOTH STORAGE & CARE:

After use, keep cloth in the resealable pouch until next use, ensuring the seal is fully closed. If cloth becomes too dry, add up to 1 ml of water to pouch to reactivate cloth. For best results, store at ambient temperature/humidity. Dispose cloth after 600 uses or 6 months.

External surface use only.
Keep out of reach of children.
Do not wash

IMPERIAL SURGICAL LTD.

ANTIMICROBIAL IV POLES WITH CUVERRO SHIELD™

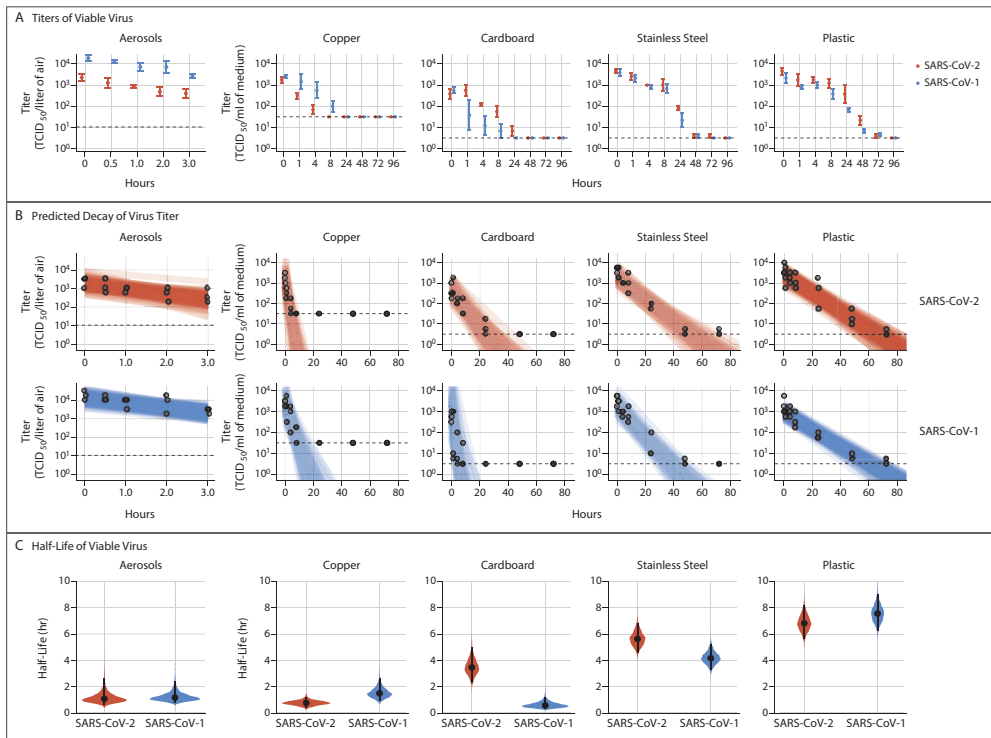

Frequently touched surfaces like IV poles have long been identified as reservoirs for the spread of pathogenic microbes.¹ These can easily contaminate the hands and equipment of healthcare professionals who in turn can transmit these pathogens to patients during routine care leading to Healthcare-associated infections.

Our Antimicrobial IV Poles protected with CuVerro Shield™ by Aereus Technologies* offers you a solution to this problem.

CuVerro Shield™ is a unique coating of naturally antimicrobial copper that is applied to our stainless steel poles, ram horns, and u-hooks to deliver outstanding protection to your highest touch zones.

The result? CuVerro® kills more than 99.9% of bacteria** within two hours and continues to kill 99% of bacteria** even after repeated contamination.

A US government funded study conducted by researchers at the US National Institutes of Health and the Centers for Disease Control and Protection found that the HCoV-19 virus remained viable for up to 2 to 3 days on plastic and stainless steel surfaces versus up to 4 hours on copper.²

Viability of SARS-CoV-1 and SARS-CoV-2 in Aerosols and on Various Surfaces.²

* CuVerro Shield™ by Aereus Technologies is a Health Canada Pest Management Regulatory Agency (PMRA) registered process.

**Laboratory testing shows that, when cleaned regularly, CuVerro surfaces kill greater than 99.9% of the following bacteria within 2 hours of exposure: Methicillin-Resistant Staphylococcus aureus, Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, E.coli O157:H7, and Vancomycin-Resistant Enterococcus faecalis (VRE). The use of CuVerro® bactericidal copper products is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface has been shown to reduce microbial contamination, but it does not necessarily prevent cross contamination.

V-CUV-50007	CuVERRO SHIELD™ SEMI-ROUND STEEL HANDLE

LARGE PRONG KNOB FOR
HEIGHT ADJUSTMENT, EASY
TO TURN EVEN WITH WET
HANDS

GOOD TO KNOW: In the unlikely event your CuVerro coated IV Pole should become deeply scratched, a study conducted by the University of Waterloo demonstrated that antimicrobial activity of the Aereus coating is maintained even when completely removed up to a width of between 3 and 5 mm, under the test conditions used in this study.³

³ Tanvir S, Anderson WA. 2020. Antimicrobial Activity of "Deeply Scratched" Aereus-Coated Surfaces. Department of Medical Engineering, University of Waterloo. 2020.

STAINLESS STEEL HANDS-FREE DOOR OPENER

The Imperial Surgical Ltd. Hands-Free Door Opener is a 100% stainless steel, foot operated door opener that works on any latch-less door.

Easy to install and easy to clean, the no-touch opener helps minimize the spread of germs by reducing the need to touch door handles where bacteria and viruses may live.

The hands-free door opener comes with an eye catching sticker to put on the door to encourage people to use it. We also provide the hardware so you have everything you need for installation.
